

For a quick and effortless print job, Best Digital requests that you adhere to the following artwork specifications. Any job submitted that does not meet these criteria may require additional artwork time which can incur further charges.

Accepted formats from either Mac OSX or Windows:

- Adobe Acrobat (.pdf)
- Adobe Illustrator (.ai or .eps)
- Adobe Photoshop (.tiff or .jpg)

PDF files are preferred over all others.

Artwork Checklist:

- 5mm Bleed (if required)
- 100% scale
- 1-up on a single page
- Convert your text to paths, curves or outlines
- All images at 300 dpi
- Nominate all colours as Pantone (PMS)
- All photos supplied as RGB
- If mailing your material, please include a colour or black and white proof of your file

PLEASE NOTE

Screen colours are never accurate; please check your RGB and Pantone (PMS) specifications. Any files received in any other colour format (i.e. CMYK, LAB, HSB) will still be printed and may not reproduce as you expect. Best Digital Signs will not be responsible for any colour variations/errors.
